'Bristol Good Food' is a simple message developed by the Food Policy Council. We believe that 'Good Food' is vital to the quality of people's lives in the city. As well as being tasty, healthy and affordable, the food we eat should be good for nature, good for workers, good for local businesses and good for animal welfare.

This year the Get Growing Garden Trail has been made possible thanks to a grant from the R H Southern Trust.

Access: Community growing sites often have uneven ground, and sometimes the approach roads or tracks may also be uneven. If you have particular access requirements, please contact the individual groups where you would like to visit, for information specific to your needs. All visits are made at your own risk.
